

On March 10, you are getting an upgrade!

Meet your **NEW** Mastercard Debit Card, Online Banking, and Mobile App

Block and unblock your debit card | Make mobile deposits | Set up your own text/email alerts

Prepare for your upgrade with this checklist:

-  **SAVE Your Past Statements**
Be sure to print or save any previous statements as they will not be available online after March 9, 2025.
-  **RECORD Your Bill Payment Payees**
Bill Pay users should record all payees before March 4. The bill payment system will be temporarily suspended beginning March 4. Saving your records beforehand may prevent possible issues during the upgrade. On March 10, the upgrade will be complete, and your payees and scheduled payments will continue as previously set.
-  **SCHEDULE Your Payments Prior to March 3 or Wait for the Upgrade on March 10**
Bill Pay will not allow any new bills to be scheduled March 3 through March 9, 2025. Begin scheduling payments again on March 10.
-  **ACTIVATE Your New Mastercard Debit Card**
Activate your new Mastercard debit card when it arrives in the mail. Your new PIN will arrive in your mailbox 1-2 days after you receive your debit card. You can use your new card beginning March 10.
-  **UPDATE Your Merchant Accounts**
After March 10, update any accounts with your new debit card number to ensure any recurring payments billed to your debit card are not interrupted or missed.
-  **DISCONTINUE Your Old Debit Card**
After March 10, destroy your old debit card.
-  **DOWNLOAD Your New Mobile Banking App**
On March 10, delete your existing app and download the new mobile banking app called **Home Bank & Trust Co. Mobile**. Your new app will be available in the Google Play store for Android users and the Apple store for iPhone/iPad users.
-  **LOG IN to Your New Online Account & Mobile App**
Beginning March 10, use your existing online banking user name to log in to the website and the new app. **Your temporary password will be the last 6 digits of your SSN/Tax ID.** Once logged in, you can update your password.
